

**Advice 13-2010 of the Scientific Committee on the analysis program of the FASFC : re-evaluation of the scores attributed to the severity of microbiological hazards related to food safety, animal and vegetal production.**

This advice concerns the re-evaluation of the scores attributed to the severity of the consequences linked to microbiological hazards related to food safety, animal and vegetal production. These scores are used for the calculation of the number of analysis to be included in the FASFC control program by application of a risk based methodology. The advice proposes a limited number of modifications of the scores for the severity of the consequences of microbiological hazards.
