

**Advice 09-2012 of the Scientific Committee of the FASFC on a project of royal decree amending the royal decree of 21 February 2006 establishing the conditions for approval and authorization of business establishments in the animal feed sector and amending the royal decree of 16 January 2006 laying down detailed approvals, authorizations and foregoing registrations delivered by the Federal Agency for the Safety of the Food Chain**

The Scientific Committee has evaluated a draft royal decree amending the royal decree of 21 February 2006 establishing the conditions for approval and authorization of business establishments in the animal feed sector and amending the royal decree of 16 January 2006 laying down detailed approvals, authorizations and foregoing registrations delivered by the Federal Agency for the Safety of the Food Chain.

The Scientific Committee has no remarks on the draft royal decree.

The Scientific Committee draws the attention to the business operators on the importance of a proper definition of 'a sampling lot' for the risk assessment of dioxins in animal fat that goes into animal feed.
