

**Advice 07-2014 of the Scientific Committee of the FASFC on the draft royal decree laying down the animal health requirements governing trade and imports into the Community of animals, semen, ova and embryos of equines and laying down the requirements for semen collection centres, semen storage centers, embryoteams and embryo production teams as well as the requirements for as donor functioning equidae.**

The Scientific Committee is of the opinion that the draft royal decree is of good quality and contributes to the compliance with the good sanitary practices in semen collection centres, semen storage centers, embryoteams and embryo production teams. The Committee formulates some general and specific remarks. In conclusion the Committee gives a favorable advice, provided that the remarks are taken into account.
